dt.17.04.92.

* * * * *

The Schedule of plinth area rates and the rates for Electrical fittings etc., as
approved for adoption for the year 2005 - 2006 for Chennai city for various types of
Buildings is enclosed. The rates will take effect from 01.12.2005.

The Executive Engineers of this Circle are requested to adopt these rates for
working out the value of the buildings taken on rent for Government purposes in
connection with the fixation of rent and issuing reasonable rent certificates.

The Executive Engineers should not adopt any rates other than the rates now fixed
without the specific prior approval of the Superintending Engineer, Public Works
Department, Buildings (Maintenance) Circle, Chepauk, Chennai - 5.

The Executive Engineers should follow the instructions of the Chief Engineer
(Buildings) cited under reference on the subject while preparing rental valuation
calculations.

37

The Executive Engineers are requested to supply the schedule of plinth area rates and the rates for Electrical fittings to the field officers under their control with suitable instructions to finalise and submit the rental valuation calculation of buildings in complete shape within a fortnight from the date of request for the same from the occupant.

The Executive Engineers are requested to acknowledge the receipt of this proceedings with the enclosure.

Encl.: Schedule of Plinth area rates and rates for Electrical fittings etc., for 2005 - 2006.

	Rate of Depreciation	1.50%	1.50%	1.50%	1.50%	1.50%	1.50%	1.50%
III CLASS "C" Buildings built with bricks in mud in which country wood has been used throughout	Ground Floor	3060	3060	2115	1630	1885	1415	1885
	First Floor	2655	2655	1735	1210	1530	775	1575
	Second Floor	2730	2730	1780	1270	1595	840	1615
	Rate of Depreciation	2%	2%	2%	2%	2%	2%	2%
Value of water supply and sanitary installation and electrical installation								Actual Depreciated value of these fittings including their connection or the prescribed maximum limit i.e. 7.50% of each category of the depreciated capital cost whichever is less should be adopted.

	Value of items	Rate for 2005-2006 in Rs.
1	Compound wall of 4½" inch thick of 5.0 feet height with intermediate pillar of 9" inch square using bricks with cement or lime mortar	1245 / RM
2	Compound wall of 9" inch thick of 5.0 feet height using brick with cement or lime mortar	1635 / RM
3	Mosaic flooring using Grey Colour tiles	388 / m ²
4	Mosaic flooring using colour tiles (other than Grey)	408 / m ²
5	0.5 H.P. Electrical Motor	3700 / Each
6	1.0 H.P. Electrical Motor	5500 / Each
7	2.0 H.P. Electrical Motor	7200 / Each
8	3.0 H.P. Electrical Motor	8200 / Each
9	Fan 1.2M Sweep	1100 / Each
10	Fan 1.4M Sweep	1200 / Each
11	Tube light double box type fitting 4.0 feet 40 watts	465 / Each
12	Tube light single box type fitting 4.0 feet 40 watts	270 / Each
13	Light Points	456 / Each
14	Plug Points	351 / Each
15	Fan Points	456 / Each

Note : (1) The Plinth Area rates for every floor above second floor will increase by the difference in the plinth area rates of first floor and second floor. Example (a) Plinth area for 3rd floor. Plinth area of 2nd floor plus the difference of plinth area rate for 2nd floor and plinth area rate of 1st floor (b) For subsequent floors the same procedure may be adopted.

(2) For any particular type of which does not fall in any of the above classification the Superintending Engineer will fix the suitable plinth area rates depending upon the nature of construction vide Chief Engineer (Buildings), P.W.D., Circular Memo. No. Wks.II(3) 167092 73-8 dt. 15.03.1973.
